1. Contact Person (Name, Email Address, Phone Number)

Jennifer Bouldin
jbouldin@astate.edu
870-972-3079

2. Proposed starting term and Bulletin year for new course or modification to take effect
 Fall 2025

Instructions:

Please complete all sections unless otherwise noted. For course modifications, sections with a "Modification requested?" prompt need not be completed if the answer is "No."

3.

	Current (Course Modifications Only)	Proposed (New or Modified) <i>(Indicate "N/A" if no modification)</i>
Prefix		DRVM
Number*		716V
Title (include a short title that's 30 characters or fewer)		Veterinary Immunology
Description**		This course presents current concepts in basic and clinical immunology with special emphasis on protective immunity against infectious diseases and the role of aberrant immune responses in disease.

* Confirm with the Registrar's Office that number chosen has not been used before and is available for use. For variable credit courses, indicate variable range. *Proposed number for experimental course is 9.*

**Forty words or fewer (excepting prerequisites and other restrictions) as it should appear in the Bulletin.

4. Proposed prerequisites and major restrictions **[Modification requested? Yes/No]**

(Indicate all prerequisites. If this course is restricted to a specific major, which major. If a student does not have the prerequisites or does not have the appropriate major, the student will not be allowed to register).

- a. No Are there any prerequisites?
 - a. If yes, which ones?
 - b. Why or why not?
 Students entering DRVM program will have qualified credits
- b. **YES** Is this course restricted to a specific major?
 - a. If yes, which major? Doctor of Veterinary Medicine

5. Proposed course frequency **[Modification requested? Yes/No]**

(e.g. Fall, Spring, Summer; if irregularly offered, please indicate, "irregular.") *Not applicable to Graduate courses.*

6. Proposed course type **[Modification requested? Yes/No]**

Will this course be lecture only, lab only, lecture and lab, activity (e.g., physical education), dissertation/thesis, capstone, independent study, internship/practicum, seminar, special topics, or studio? Please choose one. |
Lecture

7. Proposed grade type [Modification requested? Yes/No]

What is the grade type (i.e. standard letter, credit/no credit, pass/fail, no grade, developmental, or other [please elaborate])
Standard letter

8. No Is this course dual-listed (undergraduate/graduate)?

9. No Is this course cross-listed?

(If it is, all course entries must be identical including course descriptions. Submit appropriate documentation for requested changes. It is important to check the course description of an existing course when adding a new cross-listed course.)

a. - If yes, please list the prefix and course number of the cross-listed course.

Enter text...

b. - **Yes / No** Can the cross-listed course be used to satisfy the prerequisite or degree requirements this course satisfies?

Enter text...

10. Yes Is this course in support of a new program?

a. If yes, what program?
Doctor of Veterinary Medicine

11. No Will this course be a one-to-one equivalent to a deleted course or previous version of this course (please check with the Registrar if unsure)?

a. If yes, which course?

Enter text...

Course Details

12. Proposed outline [Modification requested? Yes/No]

(The course outline should be topical by weeks and should be sufficient in detail to allow for judgment of the content of the course.) |

Enter text...

Tentative Lecture Topics / Activities

1	Introduction to Immunology-
2	Cells and Tissues of the Immune System -
3	Innate Immunity: Early Recognition of Foreign Invaders -
4	Innate Immunity: Inflammation -
5	Innate Immunity: Phagocytosis -
6	Innate Immunity: The Complement System -
7	Cytokines and Their Receptors –
8	Triggers of Adaptive Immunity –
9	DCs and Antigen Processing –
10	MHCs –

11	Lymphocytes –
12	Helper T cells and Their Response to Antigen -
13	B cells and Their Response to Antigen -
14	Structure and Function of Antibodies -
15	Immunoglobulin Genes and Generation of Diversity -
16	T Cell Function and Destruction of Cell Associated Invaders -
17	Regulation of Adaptive Immunity I -
18	Regulation of Adaptive Immunity II -
19	Neonatal Immunity –
20	Case Study: Neonatal Isoerythrolysis –
21	Mucosal Immunity –
22	Vaccination -
23	Immunity to Bacteria and Fungi -
24	Immunity to Viruses -
25	Evasion of Immune Response by Pathogens -
26	Type I Hypersensitivity -
27	Type II Hypersensitivity -
28	Type III Hypersensitivity -
29	Type IV Hypersensitivity -
30	Case Study - Hypersensitivity -
31	Transfusion Immunology -
32	Case Study - Cross Matching / Calculating Transfusion Volumes / Monitoring Patients -
33	Tumor Immunology -
34	Case Study - Targeted Tumor Immunotherapies -
35	Self-Tolerance and Autoimmunity -
36	Immunodeficiency and Immunological Defects -
37	Systemic Immunological Diseases -
38	Immunotherapeutics -
39	Immunodiagnostics -
40	Case Study - FeLV/FIV/FIP Testing -
41	Overview of Equine Vaccines & Ongoing Studies -
42	Weaning Stress and Immunomodulators -
43	Geriatric Horses – Let’s talk about Vaccination, Deworming and Inflammation -
44	Topics in Immunology Research I -
45	Topics in Immunology Research II –

13. Proposed special features [Modification requested? Yes/No]

(e.g. labs, exhibits, site visitations, etc.)

Enter text...

14. Department staffing and classroom/lab resources

College of VM new staffing and resources

- a. Will this require additional faculty, supplies, etc.?
DRVM Faculty & supplies

15. No Does this course require course fees?

If yes: please attach the New Program Tuition and Fees form, which is available from the UCC website.

Justification

Modification Justification (Course Modifications Only)

16. Justification for Modification(s)

Enter text...

New Course Justification (New Courses Only)

17. Justification for course. Must include:

- a. Academic rationale and goals for the course (skills or level of knowledge students can be expected to attain)

The student will learn current concepts in basic and clinical immunology with special emphasis on protective immunity against infectious diseases and the role of aberrant immune responses in disease.

- b. How does the course fit with the mission of the department? If course is mandated by an accrediting or certifying agency, include the directive.

General education for DRVM students

- c. Student population served.

DRVM students

- d. Rationale for the level of the course (lower, upper, or graduate).

Graduate only to fulfill requirements of DRVM program

Assessment

Assessment Plan Modifications (**Course Modifications Only**)

18. YES Do the proposed modifications result in a change to the assessment plan?

If yes, please complete the Assessment section of the proposal

Relationship with Current Program-Level Assessment Process (Course modifications skip this section unless the answer to #18 is "Yes")

19. What is/are the intended program-level learning outcome/s for students enrolled in this course? Where will this course fit into an already existing program assessment process?

Enter text...

AVMA Standards

1. Comprehensive patient diagnosis (problem solving skills), appropriate use of clinical laboratory testing, and record management;
2. Comprehensive treatment planning including patient referral when indicated;
3. Anesthesia and pain management, patient welfare;
4. Basic surgery skills, experience, and case management;
5. Basic medicine skills, experience and case management;
6. Emergency and intensive care case management;
7. Health promotion, disease prevention/biosecurity, zoonosis, and food safety;
8. Client communications and ethical conduct; and
9. Critical analysis of new information and research findings relevant to veterinary medicine

20. Considering the indicated program-level learning outcome/s (from question #19), please fill out the following table to show how and where this course fits into the program's continuous improvement assessment process.

For further assistance, please see the 'Expanded Instructions' document available on the UCC - Forms website for guidance, or contact the Office of Assessment at 870-972-2989.

Comprehensively, the Doctor of Veterinary Medicine program will be assessed through successful completion of licensure/board examinations. Formatively, this program's assessment plan will be constructed by the school's Dean and faculty with the assistance of the Office of Assessment and Accreditation.

Program-Level Outcome 1 (from question #19)	Type outcome here. What do you want students to think, know, or do when they have completed the course?
Assessment Measure	Please include direct and indirect assessment measure for outcome.
Assessment Timetable	What semesters, and how often, is the outcome assessed?
Who is responsible for assessing and reporting on the results?	Who (person, position title, or internal committee) is responsible for assessing, evaluating, and analyzing results, and developing action plans?

(Repeat if this new course will support additional program-level outcomes)

Course-Level Outcomes

21. What are the course-level outcomes for students enrolled in this course and the associated assessment measures?

By the end of this course, students should be able to describe:

- 1.The importance of immune system in health and disease
- 2.Differences in innate and adaptive immunity.
- 3.Roles of immune organs and cells in immunity.
- 4.Principles of immune diversity, immune regulation, and hypersensitivity.
- 5.Principles of vaccination and tumor immunology.
- 6.Immunodiagnostics and interpretation of test results
- 7.Principles of autoimmunity and important examples of autoimmune diseases
- 8.Immune defects, immunodeficiencies and immunopathologies

The course outcomes described above will be measured by direct means such as written exams and rubrics (assessing papers, presentations, oral exams, etc.) Final measurement instruments will be determined by course faculty.

Bulletin Changes

Instructions

Please visit <http://www.astate.edu/a/registrar/students/bulletins/index.dot> and select the most recent version of the bulletin. Copy and paste all bulletin pages this proposal affects below. Please include a before (with changed areas highlighted) and after of all affected sections.

***Please note: Courses are often listed in multiple sections of the bulletin. To ensure that all affected sections have been located, please search the bulletin (ctrl+F) for the appropriate courses before submission of this form.**

Paste bulletin pages here...
