Director's Welcome & Forward

Welcome to the **2007-2008 Arkansas State University Factbook!** The ASU Factbook is a publication produced by the Office of Institutional Research and Planning that outlines enrollment, faculty and staff data, financial reports, and other comprehensive information for the Arkansas State University campuses at Jonesboro, Beebe, Mountain Home, Newport, and the ASU Technical Center at Marked Tree. The ASU Factbook is produced annually and is intended to provide answers to questions that are frequently asked by the administration, faculty, staff, students, alumni, and other university constituents.

The definitions and guidelines used to compile this information are provided by the Integrated Postsecondary Education Data System (IPEDS), the Arkansas Department of Higher Education (ADHE), the Office for Civil Rights (OCR), and the National Collegiate Athletic Association (NCAA). It is important to note that the information in this factbook may differ from data reported by the Office of Institutional Research and Planning to federal, state, and regional agencies due to differences in reporting guidelines, reporting definitions, and the timing of when the information was prepared.

In order to make information more readily available to all constituents, the ASU Factbook is available in PDF format on the Institutional Research and Planning web site. You can reach our web site through the Arkansas State University Home Page, or you can go to our site directly at

Arkansas State University-Beebe Mission Statement:

Arkansas State University-Beebe is a public, open access, operationally separate institution of the Arkansas State University System.

The major purpose of this institution is to provide affordable, comprehensive, and high quality instruction and service programs. University transfer and technical programs are available to students at the associate degree and certificate levels. In addition to the Beebe campus, instruction is also available at education centers at ASU-Searcy, ASU-Heber Springs, Little Rock Air Force Base, and through other off-campus locations. Instructional programs beyond the associate degree are available on the Beebe campus from ASU-Jonesboro.

An open admission policy encourages the enrollment of both traditional and nontraditional students. The institution recognizes the uniqueness of each student and provides support programs designed to assist students in determining and achieving their educational, personal, and occupational goals. By providing comprehensive training and technical support for business and industry, the institution contributes to the economic development of Arkansas. Cultural enrichment activities are provided to enhance the quality of life for the citizens of the local communities.

HISTORY

As the oldest two-year college in the state, ASU-Beebe has paved the way in making a quality education affordable and attainable for Central Arkansas students. ASU-Beebe celebrated its eightieth anniversary in March of 2007, originally opening its doors as Junior Agricultural School of Central Arkansas in 1927 after Beebe citizens donated 300 acres of land to start the school. The college has been affiliated with the Arkansas State University system since 1955, when it became a branch of Arkansas State College.

ASU-Beebe has established a strong reputation of providing quality, affordable instruction and service programs to its surrounding communities. Located 31 miles north of Little Rock, it is the tenth largest college in the state and the only Arkansas two-year college with residence halls. ASU-Beebe has a tremendous positive impact on the economy of Central Arkansas, contributing an estimated \$316 million annually to the regional economy through its operations, capital spending, and workforce comprised of former students.

ASU-Beebe has maintained its commitment to the development of top-notch learning facilities, most recently with its development of the new \$13 million Science Building.

PROGRAMS OF STUDY

ASU-Beebe has established itself as a center of academic excellence, continually having one of the highest retention and graduation rates among Arkansas two-year colleges. It offers high-quality Associate of Arts in Liberal Arts degrees with the option of choosing coursework from the fine arts, the sciences, the social sciences, education, health sciences, mathematics, foreign languages, English, and history. In addition, ASU-Beebe will soon have the only Associate of Fine Arts in Music program available at any two-year college in the state. To ensure students have the personal attention needed to succeed, ASU-Beebe offers small class sizes, great access to faculty, and full-time tutoring for students.

ASU-Beebe is a leader in the state for vocational and technical education, serving approximately 5,000 continuing education or industry students each year. In addition to Associate of Applied Science degrees, the Associate of General Education degree, and the Associate of Science in Health Sciences degree, ASU-Beebe offers certificates of proficiency and one-year technical certificates that are designed to prepare students to meet the needs of today's rapidly evolving industries. Through its advanced technology division, programs are available with

emphasis on the fast-changing needs of a modern industrial society. Advanced technology programs offered include computer systems and networking technology, computer-aided drafting/design, industrial technology, general technology, John Deere agriculture equipment technology, electronics technology, and medical laboratory technology. Southern Regional Education Board (SREB)

ASUJ, Four-Year 3; ASUB, Two-Year 2; ASUMH & ASUN, Two-Year 3

The SREB system for categorizing postsecondary education institutions is based upon a number of factors relevant to determining resource requirements. Differences in institutional size (number of degrees), role (types of degrees), breadth of program offerings (number of program areas in which degrees are granted), and comprehensiveness (distribution of degrees across program areas) are the factors upon which institutions are classified. Other factors relevant to determining resource requirements such as cost differences among programs or externally funded research are not taken into account in the SREB system.

CATEGORIES

Institutions are assigned to categories for a report year using the previous academic year's data on program completions. To keep the statistical comparison groups relatively stable over time and to assure that institutions change categories only when their measures on a criterion are relatively stable, institutions change categories when they meet the criterion for another category for the third consecutive year.

◆ **Four-Year 1:** Institutions awarding at least 100 doctoral degrees distributed among at least 10 CIP categories (2-digit classification) with no more than 50 percent in any one category.

◆ **Four-Year 2:** Institutions awarding at least 30 doctoral degrees distributed among at least 5 CIP categories.

◆ **Four-Year 3:** Institutions awarding at least 100 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 10 CIP categories.

◆ **Four-Year 4:** Institutions awarding at least 30 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 5 CIP categories.

◆ **Four-Year 5:** Institutions awarding at least 30 master's, education specialist, post-master's, or doctoral degrees.

◆ **Four-Year 6:** Institutions awarding less than 30 master's, education specialist, post-master's, or doctoral degrees.

◆ **Two-Year 1:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of 5,000 or more; some certificates and diplomas may also be awarded.

◆ **Two-Year 2:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of between 2,000 and 4,999; some certificates and diplomas may also be awarded.

◆ **Two-Year 3:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of less than 2,000; some certificates and diplomas may also be awarded.

The Dean B. Ellis Library, centrally located in an eight-story building, functions as an educational center for the community. The Library of Congress classification system is used for the arrangement of books, and an on-line catalog provides access to the book collection. The library meets the informational needs of the university by offering a variety of services. A staff of 15 professional librarians and 22 support personnel acquires, organizes, and services the collection. Reference librarians assist users in locating information and in the use of the library. The reference staff also offers an active library instruction program which reaches numerous university classes. The library provides access to hundreds of online databases and search services via links on the library's web site. Materials that are not contained in the library's collection are accessible by interlibrary loan through the OCLC network.

PRIVATE DONORS

Private donor support enables Arkansas State University to attract and retain the highest quality students. Citizens of Northeast Arkansas communities have historically provided generous donor support. Additionally, private support endows numerous ASU scholarships each year. Scholarships help to keep the brightest students in Arkansas, and scholarships are more necessary now than ever. An endowed scholarship can be established for \$10,000, or an annual gift may be provided to fund one or more scholarships. Scholarships are currently available in virtually every discipline.
