

Technology Committee Meeting

Date: November 9, 2021

Time: 1:00-1:52 p.m.

Present: Tonja Fillippino, Alicia Shaw, Diana Williams, Lance Bryant, Lisa Rice

EPP Wide Tech Plan

Goal is to have a technology plan with rubrics that is EPP-wide so there is no need to separate programs like initial and advanced.

We will think about revisions that may be needed to suit more programs like the advanced programs

Make sure to link changes made to rubric to the timeline and checkpoints

For Phase 1, the goal is for faculty to get professional development related to technology (it was written to be broad so faculty could choose PD to suit their needs)

For Phase 2, within this phase advanced programs may need their own check points—see if language modifications will suit their needs.

For implementation, the methods courses seem like the most suitable place to implement phase 2 (candidates and faculty)

All phases are considered “ongoing” — reiterate to faculty

A question we considered is if we need to push back Phase 1 (currently set as Fall 2021), but we need to consider that we need three cycles of data.

Tonja will modify language throughout document to make sure it fits advanced programs (e.g., in faculty timeline)

The timeline and rubrics will be shared at the Nov. 17 EPP faculty meeting. Diana will make copies to distribute. Tonja will share out at the meeting.
